(a) Any person or entity who, in good faith and without compensation, uses an AED to provide emergency care or treatment shall be immune from civil liability for any personal injury resulting from the care or treatment, or resulting from any act or failure to act in providing or arranging further medical treatment, if the person acts as an ordinary, reasonably prudent person would have acted under the same or similar circumstances.

(b) The immunity from civil liability provided under subsection (a) of this section shall extend to the licensed physician or medical authority involved in automated external defibrillator site placement, the person who provides training in CPR and the use of the automated external defibrillator, and the person or entity responsible for the site where the automated external defibrillator is located.
